

**REMARKS**

Reconsideration and allowance of this application are respectfully requested in view of the above Amendment and discussion below.

Each of the changes are essentially in accordance with the requirements for formal matters indicated at pages 2 and 3 of the patent Office Action. It is also noted that Applicants presume that the recitation of a "top position" for each of claims 8, 9 and 10 was meant to refer to a "stop position". Furthermore, the change has been made from "an close direction" to "a closed direction" which was not indicated in the requirement, but which provides correct grammatical recitation.

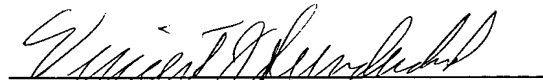

Therefore, in view of the indicated allowance of claims 1-23 and the above-compliance with the requirements for formal matters, Applicants respectfully request that this application be passed to issue.

If there are any questions regarding this amendment or the application in general, a telephone call to the undersigned would be appreciated since this should expedite the prosecution of the application for all concerned.

If necessary to effect a timely response, this paper should be considered as a petition for an Extension of Time sufficient to effect a timely response, and please charge any deficiency in fees or credit any overpayments to Deposit Account No. 05-1323 (Docket #056207.52990US).

Respectfully submitted,
